## ABOUT ME

[GitHub](#)

I am a motivated and adaptable student with strong teamwork and communication skills. I learn quickly in new environments and enjoy understanding how things work, which helps me pick up concepts faster than most. I approach problems logically and calmly, making me effective at finding practical solutions even under pressure. Through my academic projects and collaborative work, I've developed a reliable work ethic and the ability to contribute meaningfully to group tasks. I'm looking for an opportunity where I can continue improving my skills, support team objectives, and grow into a capable professional.

## EDUCATION

### Grade 10 / CISCE

Percentage - 90.00

2020 - 2021

Daffodils English School

### Grade 12 / CBSE

Percentage - 94.80

2021 - 2023

National Public School

### Undergrad (BE)

CGPA- 8.17

2023 - 2027

BMS Institute of Technology

## PROJECTS

### Topic :

Smart gas leakage detection

- IoT gas leakage detection with <2s alerts using MQ-2 + ESP8266.
- 24/7 mobile alerts via Blynk/MQTT; reduced manual monitoring by ~80%.
- Automated alarm & fan/gas control; ~60% faster response.
- Cloud logging of 100+ readings/day.
- Low-cost build under ₹2,000 (40-50% cheaper).

ML-Driven Churn and Lapse Risk Prediction Framework

- ML-based churn prediction using RF/XGBoost with ~85%+ accuracy.
- Feature engineering + model comparison improved performance by ~10-15%.
- Risk-scoring dashboard to identify top 20-30% high-risk policyholders for early action.
- GitHub - <https://github.com/loopsnovaa/Lapse-predictor>

Type-It : A Web Based Typing Indicator

- Built TYPEIT, a web-based typing indicator with real-time UI updates and WPM/accuracy tracking.
- Improved user engagement via interactive feedback, boosting typing accuracy by ~20-30%.
- Delivered a responsive, lightweight web app for instant browser-based access.

AI Meeting Minutes Generator (In Progress)

- Converting meeting audio to text using Whisper.
- Generating structured summaries using LLMs.
- Extracting key points and action items automatically.
- GitHub-<https://github.com/Abhiramkeerthi/meeting-minutes-generator.git>

## GENERAL SKILLS

- Programming languages : Python, Java, C programming, SQL, HTML, CSS
- Libraries and Frameworks : Pandas, NumPy, Matplotlib, Scikit-learn, XG-Boost
- Collaboration Tools : Github, Canva

## CERTIFICATIONS

- Programming in C (Infosys)
- Introduction to Python (Infosys)
- Overview of Agile and DevOps (Infosys)
- Project management with agile (Infosys)
- SAP Certified - SAP Business Data Cloud
